

Purbeck Mining Museum - Super Sleuth trail

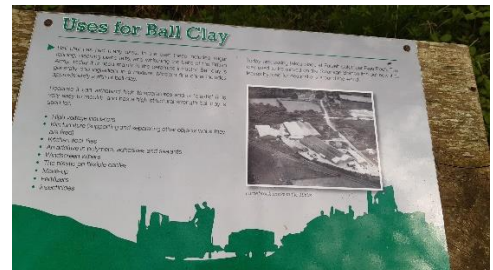

Welcome to Purbeck Mining Museum. We hope you enjoy your visit.

Are you a Clay Mine Super Sleuth? Fill in the answers to the 10 questions in this activity trail, then bring your completed sheet back to the Foreman's Hut to see if you're right. All the answers can be found in the museum and surroundings, and you'll find some hints in the photos on this sheet.

1 Since when has pottery been produced from local clay?

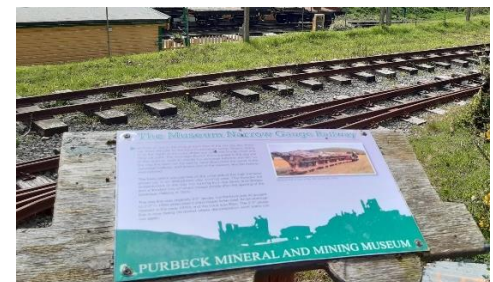

2 Name two uses of Ball Clay

3 When was clay first transported by tramway?

4 What gauge (width between the rails) is the Purbeck Mining Museum Narrow Gauge Railway?

5 Which manufacturer made the battery charging rack?

6 What material is laid over the wooden floorboards in the main museum building?

7 Name one item which was moved around in the wooden "tubs"?

8 What year did Norden No. 6 and No. 7 mines close?

9 Did you pull the red rope? How many rings mean "haul up"?

10 What "gate" has to be open for clay tubs to move up and down the ramp to the tunnel?

Bonus question: what happened when you turned the handle of the old telephone?
